**From Artillery to Air Corps**

After spending his childhood in Nazi-occupied Czechoslovakia and witnessing the Communist takeover of his country in 1948, a young journalist named Milan Kubíček embarked on a career as a NewswEEK correspondent that spanned thirty-one years and three continents, reporting on some of the most memorable events in the Middle East. Now, Kubíček tells this fascinating story in depth. His book describes his escape to the US Zone in West Germany; his life in the Displaced Persons camps; and his arrival in 1950s America, where he worked as a writer and factory worker and served in a US Army intelligence unit during Senator Joe McCarthy's witch-hunting years. Hired by NewswEEK after graduating from journalism school, Kubíček covered the White House during the last year of Dwight D. Eisenhower's presidency, the US Senate run by Lyndon Johnson, and the campaign that elected President John F. Kennedy. Kubíček spent twenty-six years reporting from abroad, including South America, the Indian subcontinent, and Eastern and Western Europe. Of particular interest is his account of the seventeen years—starting with the Six Day War in 1967—when he watched the Israeli-Palestinian conflict from Beirut and Jerusalem. In From Prague to Jerusalem, readers will meet the principal Israeli participants in the Iranian affair, accompany Kubíček on his South American tour with Bobby Kennedy, take part in his jungle encounter with the king of Belgium, witness the inglorious end of Timothy Leary's fight to the Middle East, and observe the debunking of Hitler's bogus diaries. This riveting memoir will appeal to general readers and scholars interested in journalism, the Middle East, and US history and politics.

In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Air Force bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a floundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. Appearing in paperback for the first time—with twenty arresting new photos and an extensive Q&A with the author—Unbroken is an unforgett able testament to the resilience of the human mind, body, and spirit, brought vividly to life by Seabiscuit author Laura Hillenbrand. A bold and authoritative maritime history of World War II which takes a fully international perspective and challenges our existing understanding Command of the oceans was crucial to winning World War II. By the start of 1942 Nazi Germany had conquered mainland Europe, and Imperial Japan had overrun Southeast Asia and much of the Pacific. How could Britain and distant America prevail in what had become a “war of continents”? In this definitive account, Evan Mawdsley tells the story of the great sea battles of World War II. The book draws upon his lifetime of research and includes all the major naval engagements, from Pearl Harbor to the surrender of Japan. It is essential reading for anyone interested in the history of World War II. This is the story of Civilian Public Service smokejumpers, who battled against dangerous winds, searing heat, and devastating fires from 1943 until 1945. Fewer than 300 World War II conscientious objectors served their country in this fashion, operating out of CPS bases in Montana, Idaho, and Oregon. But that small band of men helped to keep alive Forest Service operations in the Pacific Northwest and thus maintained a program to fight potential wildland forest fires. When the war ended, CPS smokejumpers, like millions of World War II combat soldiers,
were "ushered out" of wartime service. Some, like many returning GIs, encountered difficulties in adjusting to civilian life. Nevertheless, the one-time smokejumpers often went on to make other remarkable contributions to their communities, their nation, and the world.

Boards of directors are sitting ducks. Shareholders complain and even attack, management manipulates, and individual board members have little power, able to act only as part of the board as a whole. Governance issues are front and center, yet there is often little understanding, even among board members, of the key role that they play. Written in an accessible and human voice, The Governance Revolution: What Every Board Member Needs to Know, NOW! provides information and context essential to anyone seeking to understand how corporations and their stakeholders can and should work together to help create a volatile world in which board members of corporations actually do, the current standards for board members and why they exist. She includes a timely discussion of how clarity of purpose can improve board and director effectiveness. Informed by her long experience serving public, private, and family owned corporate boards as well as those of charitable, and government organizations, she provides essential context regarding the evolution of board practice as well as candid discussion of the issues involved in the relentless effort to improve corporate governance processes. Focused mainly on the dominant public corporation, she also explores the special challenges of serving private and family owned as well as nonprofit and public agency boards. Written by a seasoned board member, and liberally laced with stories and cases illustrating the tricky issues directors wrestle with, this book is essential common-sense companion for anyone working with a board, serving on a board, or wanting to do so. Directors, aspiring directors, investors, and students of corporate behavior will benefit from this highly readable description of the disordered boardroom. This book documents the case that World War II happened in such a different world that it has little relevance to today's foreign policy, as well as the case that U.S. participation in WWII was not justifiable. Specifically, WWII was not fought to rescue anyone from persecution, was not necessary for defense, was the most damaging and destructive event yet to occur, and would not have happened had any one of these factors been missing: World War I, the manner in which WWII was ended, U.S. funding and arming of Nazis, a U.S. arms race with Japan, U.S. development of racial segregation, U.S. development of eugenics, U.S. development of genocide and ethnic cleansing, or the U.S. and British prioritization of opposing the Soviet Union at all costs. The author corrects numerous misconceptions about the most popular and misunderstood war in western culture, in order to build a case for moving to a world beyond war.

**U.S. History**

In times of war, soldiers on the front lines must fight for their country. But acts of courage by some people aren’t known until years after the fighting ends. From flying bombing missions in the dead of night, to tricking the enemy with fake encampments and unbreakable codes, to surviving horrific treatment by the enemy through sheer force of will, these incredible true tales will show how courage in war is often displayed by history’s unsung heroes.

Merriam Press Military Monograph 92. Second Edition (March 2012). On his twenty-sixth horrifying mission over the hostile skies of Nazi Europe a charismatic bombardier, seated at the nose of a B-17, strapped on his parachute as his disintegrating bomber dropped uncontrollably to the ground. What got him to this point, the ensuing months behind barbed wire, and his daily letters written to his family in Akron, Ohio provide the engrossing content of A Story of One. This is an emotionally intense memoir of a bombardier’s experiences during World War II with the 817th Bomb Squadron, 483rd Bomb Group, Fifteenth Air Force. This book recreates a straightforward story of a cadet growing into a matured and experienced lieutenant that can be applied to illustrate the immense impact of World War II on individual lives. Unlike the scores of historical studies of leaders, military decisions and battles and equally plentiful novels of war, this book is the essential, common-sense companion for anyone working with a board, serving on a board, or wanting to do so. Directors, aspiring directors, investors, and students of corporate behavior will benefit from this highly readable description of the disordered boardroom. **Everything You Should Know About Second World War Aftermath**

"Before Alamne we never won a battle, after Alamne we never lost one.” Winston Churchill Although this is an exaggeration, it is perhaps a pardonable one. The second battle of El Alamein in November 1942 was fought in April 1943 by the complete withdrawal of German troops from North Africa. Meanwhile, on the Eastern Front, the Red Army had entered the hell of Stalingrad and emerged victorious. In the Pacific, American troops had captured and held the strategically vital island of Guadalcanal, in the teeth of frantic Japanese counter-attacks. In Burma, the Chindits were continuing to harass the enemy while British forces regrouped in preparation for the recapture of the country. The tide of the war had begun inexorably to turn in favour of the Allies. Victory covers all fronts in detail as it charts the progress of the end of World War II.

The Army Air Forces in World War II, Volume I: Plans and Early Operations, January 1939 to August 1942

A look at the customs, traditions, characters, and military history of the Gurkhas, crack infantry regiments of the British army made up of recruits from the kingdom of Nepal

A Story of One

At the beginning of World War II, professor Lauren Post, San Diego State College, asked his students entering military service to write to him. Thousands of letters arrived from places like Pearl Harbor, North Africa, and Normandy, beginning with the salutation, “Dear Doc.” They described vivid accounts of training, combat, and camaraderie. Pilots wrote about seeing planes shot down. Men in POW camps wrote about their experiences, and Dr. Post passed information on to frantic families. Mothers, hoping for news about missing sons, clutched at the details. These intimate, first-person accounts capture honest, in-the-moment reactions to war that resound with heartfelt gratitude. Each month, Dr. Post excerpted the letters and mailed the Aztec News Letter around the world. Fraternities, typing classes, and families donated time and money for printing and postage. When the latest issue arrived, servicemen and women read it cover-to-cover, and then passed it to another Aztec in service. Dr. Post produced and mailed a newsletter each month for four years. He sent pilots Aztec stickers to put on their planes. Soldiers sent him Nazi flags and sand from Iwo Jima. He talked up the medals they earned and took time to call their mothers. He couldn’t rest until he knew that every student who had been taken prisoner was released. For years afterward, men and women dropped by his small campus office to thank him for helping them make it through the war. This is the story of the devotion of a remarkable college professor who held his students, their campus, and an entire community together during World War II. These students fought for democracy and to preserve a cherished way of life that included football, Coca-Cola, and Sadie Hawkins dances. Their correspondences to one beloved professor describe an American perspective of war that shines with idealism, determination, raw grief, and the power of friendship.

War Journey

Winner of the American Library Association's Asian/Pacific American Award for Literature For Readers of The Librarian Of Auschwitz, This Light Between Us is a powerfully affecting story of World War II about the unlikeliest of pen pals—a Japanese American boy and a French Jewish girl—as they fight to maintain hope in a time of war. “I remember visiting Manzanar and standing in the windsweped plains where over ten thousand internees were once imprisoned, their voices cut off. I remember how I wanted to write a story that did right by them. Hopefully this book delivers.”—Andrew Fukuda In 1935, ten-year-old Alex Maki from Bainbridge Island, Washington is disgusted when he’s forced to become pen pals with Charlie Levy of Paris, France—a boy. He thought she was a boy. In spite of Alex’s reluctance, their letters continue to fly across the Atlantic—and along with them, the shared hopes and dreams of friendship. Until the Japanese attack on Pearl Harbor and the growing Nazi persecution of Jews force them to confront the darkest aspects of human nature. From the desolation of an internment camp on the plains of Manzanar to the horrors of Auschwitz and the devastation of European battlefields, the only thing they can hold onto are the memories of their letters. But nothing can dispel the light between them. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Where Is the World Going?

Menia Press Historical Fiction HF10 (First Edition, 2015). The late Pierre Gerard's historical war romance, “Le Havre,” poignantly portrays the atrocities of war, and what happens when individuals and nations either ignore, unite with or combat those whose deliberate and declared intent is to intimidate, persecute, dominate and annihilate other people and countries of the world. We learn about the boundless bravery that was France's salvation during those terrifying, turbulent years. We experience patriotism and discover the ultimate meaning of devotion to one's country. It's a story of love and self-sacrifice. We taste the unleashed, incomprehensible evil that man is capable of and the horrific anguish and extermination the Nazis successfully executed against Jews, disidents, and those they deemed different and inferior, and therefore, unworthy of life. We go through the early warning signs of tyranny and easily get engulfed in the intensity and importance of defending oneself, one's culture and one's homeland against radical, racist and immoral intruders. We are reminded that the physical, emotional, mental and spiritual carnage of World War II continues to haunt and hound us even today. And so, "Le Havre" is significant not just for France and Europe during World War II, as the ramifications of this historical novel and era also apply to present and future civilizations, all free world nations, and the planet. With this in mind, it is my hope that the reader be awakened and inspired by the passion and positive activism of The French Resistance.
